and I saw a minor typo in the cover letter! Ouch. Must have been gremlins.  
Rob

Thank you Rob. It is interesting that the report is just being acknowledged now, two years after its completion.

I was able to download the report. FYI, as I'm sure you know, the report pertains to GM-38, and the correct title is "Simulation of Zones of Contribution to Wells at Site GM-38, Naval Weapons Industrial Reserve Plant, Bethpage, New York."

**Subject:** FW: Published USGS report Groundwater model simulations

Hi Carol and Steve,  
Apparently USGS is catching up on some administrative things. Attached is a cover letter from USGS that they've published the groundwater modeling & simulation report (Northrop-Grumman/Navy) Bethpage area. They also sent a similar cover letter on the 2010 LI water levels report.

Nothing new, but you might get an inquiry.

Regards  
Rob Alvey
